**Complete Consideration of [H.R. 351](#) – LNG Permitting Certainty and Transparency Act (Rep. Johnson (OH) – Energy and Commerce) (One Hour of Debate).** This bill seeks to codify the Department of Energy’s (DOE) existing approval process for applications to export liquefied natural gas (LNG) from the United States, which currently allows DOE to evaluate the impacts of LNG exports on domestic natural gas prices for consumers and manufacturers through a public interest review. H.R. 351 requires a final public interest determination on pending applications 30 days after the completion of environmental reviews required by the National Environmental Policy Act.

The Rule, which was adopted yesterday, provides for a closed Rule and one hour of debate.

**The Daily Quote**

“Frustration is building among Senate Republicans that Speaker John Boehner (R-Ohio) is not making more of an effort to manage the expectations of House conservatives... Some lawmakers think Boehner could have done a better job of reminding rank-and-file conservatives that a repeal of the Deferred Action for Childhood Arrivals (DACA) program and another executive action shielding up to five million illegal immigrants from deportation has no chance of passing the Senate. ‘One of the things that we tried to stress at the conference was, ‘Look, we don’t have 60 votes. We can’t operate like the House does,’” said a Republican senator who requested anonymity to discuss Boehner candidly. ‘It’s going to be very difficult to achieve what the expectations are out there. Candidly, impossible,’ the lawmaker added. Senate Republicans say they’re concerned a pattern could develop in the 114th Congress in which Boehner repeatedly sends bills to the Senate that have little chance of picking up Democratic votes, fueling frustration with the upper chamber among conservative activists.”
